

## Noir rectangle white washbowl

41405002395  
M07347ABIA

### DIMENSIONS:

Width: 580mm  
Depth: 370mm  
Height: 130mm

### CARE AND MAINTENANCE:

The care of this product is quick and easy. To remove most kinds of stains, such as lime or dirt marks that normally appear on the surface, simply clean using a damp cloth or a non-abrasive sponge and a normal non-abrasive detergent. Carefully rinse the surface. We recommend the following products: ACE cream gel, CIF gel, AIAAX to be applied with a cotton cloth or a non-abrasive sponge.

Do not clean with detergents or abrasive sponges. Do not use wire wool. Although this product is heat-resistant, do not place any burning-hot object or pour any boiling fluid on its surface. It is recommended not to use aggressive chemical solvents such as acetone, trichloroethylene or other strong acid or basic solvents. Certain substances, e.g. ink, cosmetics or dyes may release colouring agents on the surface, which are therefore, to be avoided. Do not place lit cigarettes on the surface or use it as a cutting surface. Some improper uses may cause visible defects on the surface. Signs of wear, scratches, persistent stains or chipping can be generally fixed by specialist maintenance. If the gel coat thickness has not been damaged, scratches, persistent stains or small chips can be repaired by polishing the surface first using 800-Grit and then 1000-Grit sandpaper, until it is uniform. In order to restore the original shine (or to remove wear signs or lime scale deposits), products that are normally used for car waxing are recommended, according to the brand's original directions for use.
