ILLUMINATED MIRROR INSTALLATION INSTRUCTIONS

This mirror has a demister pad which is operated by the light switch.

Please read these instructions carefully before installation. Installation should be carried out by a qualified electrician. Please leave a copy for the user/maintenance engineer for future reference.

GENERAL

- This product conforms to UK safety standards and must be installed in accordance with current IEE wiring regulations and building regulations (Part P).
- This product must be earthed, and should not be connected to an un-earthed circuit if there are only two wires coming from your power supply. It means that this fitting be wired to an un-earthed circuit.
- Ensure that connections are turned off at the consumer unit or fuse board before installing or carrying out any maintenance.
- This product is for indoor use only.
- This product is IP44 rated and can be installed in the zone 2 (as defined by the IEE wiring regulations) and beyond. See the diagram below.
- Replace failed lamps immediately. Allow the glass, lamp and fitting to cool before replacing the lamp.

OUTSIDE ZONES

IMPORTANT

- When working at heights, please use a suitable platform to work from.
- Please note: For new installations, check for any electrical cables or pipe work (gas/water) in the vicinity of the intended mounting point before proceeding with the installation.
- Ensure that the fixing location is able to take the weight of the complete fitting.
- Wear suitable eye protection when drilling. Be careful when using power tools near water.

- The product must be installed with a minimum distance of 150mm between the infrared sensor and an adjacent wall or obstruction to ensure correct function of the sensor (see diagram left).

Fluorescent lamps may get hot. Ensure lamps are sufficiently cooled before changing. Connect the heated pad by separating the fast connector and store the mirror in a safe place. Then pull out the 4-lamp connector that locates on the circular fluorescent tube and gently pull out the lamp from the retaining clips. Fit the replacement tube in the retaining clips, making sure that it is secure, and push the 4 pin connector onto the lamp. Re-connect the heated pad and replace the glass front making sure all screws are secure.

Lamp Type:
T9 40W Circular Fluorescent Tube.

This product is manufactured to class I category and requires an earth connection.

COLOUR CODING:
L - Live = Brown
N - Neutral = Blue
E - Earth = Green & Yellow
ILLUMINATED MIRROR INSTALLATION INSTRUCTIONS

This mirror has a demister pad which is operated by the light switch.

Installation procedure
1. Open the carton and make sure all the parts listed below are present.

- IR Sensor
- Cable clamp
- Drain hole with blind rubber grommet
- Demister pad connector
- Mirror secure screw x 4

2. Mark a desired height of the mirror. Drill the required holes and insert the wall plugs.
   Note: Wall plugs supplied are only suitable for solid stone/brick walls. Please ensure the screws are fully tight.
   The rectangular mirrors can be mounted either portrait or landscape. When installing the products, make sure the IR Sensor always locates at right side or bottom side for easy access. The drain hole at the bottom of the product should be sealed by a blind rubber grommet.

3. Make the electrical connections ensuring first that the electrical supply has been turned off.
   This mirror is a class 1 product and requires an earth connection. It should be installed in accordance with the latest IEE regulations.

4. Close the connecting box by push down, and secure the cable clamp.

5. Connect the demister pad and secure the mirror.

GUARANTEE
This product is guaranteed in the UK for a period of 1 year from the date of purchase. The guarantee is invalid in the case of improper use, installation or tampering. Should this product fail during the guarantee period it will be replaced free of charge, subject to correct installation and return of the faulty unit. Bathstore does not accept responsibility for any installation costs associated with the replacement of this product. Your statutory rights are not affected. Bathstore reserve the right to alter specifications without prior notice.

Waste Electrical & Electronic Equipment Regulations (WEEE) requires that any of our products showing this mark (left) must not be disposed of with other household or commercial waste. Bathstore does not levy any WEEE disposal charges to its customers for affected WEEE related products. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate any such product from other waste types and recycle it responsibly at your local facilities. Check with your Local Authority, Recycling Center or retailer for recycling advice.
